Dear Parents,

Welcome to Wesley Day Care!

Let me begin by saying we are pleased to have you join our family.

Wesley Day Care was established in June of 1969. The center opened under the name, "Wesley Day Nursery". The property and the great love for children came from my husband's grandfather, John "Wesley" Lewis. It is in his memory that the center remains dedicated to children.

My husband and I took ownership of Wesley Day Care, Inc. in 1988. We have three grown children; and five grandchildren who have attended Wesley Day Care.

My background is in Early Childhood Education. Professionally, I have been involved in the education, development, and welfare of children since 1980.

I continue to enhance my education and certification in order to provide a stimulating learning environment.

My staff and I look forward to working with you and your child to help make your child's time here at Wesley a positive learning experience.

Sincerely,
Christine Davis, Director

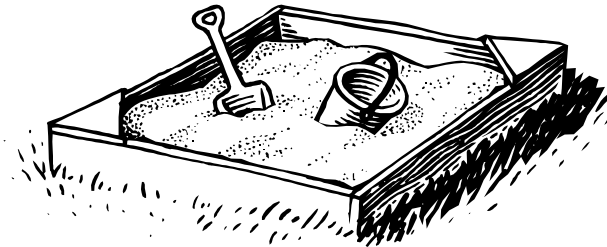

Our Philosophy

To provide each child with a safe, warm, and loving environment, which helps to foster a child's self worth and self esteem. To instill in each child the thirst for knowledge and the enjoyment that comes from these new positive experiences.

Our Staff

Our staff is truly the foundation of our program. Each member receives In-Service Training to continually provide an updated and professional atmosphere for the care of our children. Staff members plan activities that enhance various areas of learning as well as children's self esteem.

Our Program

Our program is developed to make day care a fun as well as educational experience for children based on each child's ability and readiness. Our curriculum includes arts and crafts, reading, language, math, science, social studies, music and computers. Our program is planned as the zest for life is shown in the eyes and voices of children.
